DISCLAIMER: The coding and reimbursement information provided is gathered from third party sources for informational purposes only and has not been verified with any entity responsible for coding policy, such as the AMA or the ICD-10 Committee, or any payer. It does not represent a statement, promise or guarantee by MIMEDX Group, Inc. concerning coverage levels of reimbursement payment or charges. It is not intended to increase or maximize reimbursement. As such, MIMEDX makes no guarantee that any payer will agree with the choice of codes described above. The decision as to how to complete a reimbursement claim form, including amounts to bill, is exclusively the responsibility of the provider. Reimbursement policies change frequently and can vary considerably from one insurer to another. MIMEDX strongly recommends that you consult your payers for interpretation of local coding, coverage and reimbursement policies. The ultimate responsibility for coding and claims submission lies with the physician, clinician, hospital, or other facility.

Billing Examples

BILLING CONSIDERATIONS

- Debridement is considered a component of the application code.
- Minimal wound preparation is considered part of the application.
- Only 1 primary application code can be billed even if you have multiple wounds for similar anatomic locations (e.g., trunk, arms, leg). Select the code that represents the total of all wounds for that anatomical grouping. Bill the total units for the product.
- The application code is based on wound size and the product code is based on product size. Healthcare Professionals should use the appropriate size product for the wound size to minimize wastage.

The following examples represent Medicare reimbursement.

EPIFIX 24 mm disc applied to wound on foot						
Billing Code	Code Description	Billing Units*	Co-Payment	Medicare Allowable**	Medicare Payment (80%)	Secondary Payment (20%)
15275	Application	1	20%	\$157	\$126	\$31
Q4186	EPIFIX, per cm ²	5*	20%	5 x \$155 = \$775	\$619	\$155
TOTAL				\$932	\$745	\$186

EPIFIX 4 cm x 4.5 cm mesh applied to wound on leg						
Billing Code	Code Description	Billing Units*	Co-Payment	Medicare Allowable**	Medicare Payment (80%)	Secondary Payment (20%)
15271	Application	1	20%	\$152	\$122	\$30
Q4186	EPIFIX, per cm ²	11	20%	11 x \$155 = \$1,705	\$1,364	\$341
TOTAL				\$1,857	\$1,486	\$371

The following grid provides guidance on billing skin substitute application procedure codes by wound size and anatomical location. For example, a 53 cm² wound on the leg should be billed with 1 unit of 15271 and 2 units of 15272. Add-on codes (+) cannot be billed alone. In addition to the procedure code, the product code (Q4186) should be billed with the total units of the product. Reference the EPIFIX Sizes grid on page 1 to determine billing units by product size.

Total wound surface area less than 100 cm ²		
Wound Size	Trunk, arms, legs	Face, scalp, neck, ears, genitalia, hands, feet, digits
1-25 cm ²	15271	15275
26-50 cm ²	+15272 x 1	+15276 x 1
51-75 cm ²	+15272 x 2	+15276 x 2
76-99 cm ²	+15272 x 3	+15276 x 3
Total wound surface area greater than or equal to 100 cm ²		
100 cm ²	15273	15277
101-200 cm ²	+15274 x 1	+15278 x 1
201-300 cm ²	+15274 x 2	+15278 x 2
301-400 cm ²	+15274 x 3	+15278 x 3

*Units for sizes are rounded up per Medicare guidelines. **National Medicare 2024 Payment Rate based on 2024 National Physician Fee Schedule Relative Value File. The EPIFIX rate is based on the Q3 2024 Medicare Part B Drug File. Each facility rate will vary based on its Geographic Practice Cost Index (GPCI). The calculations do not include the 2% sequestration.
